

How-to: EUROVINO wine database + exhibitor list

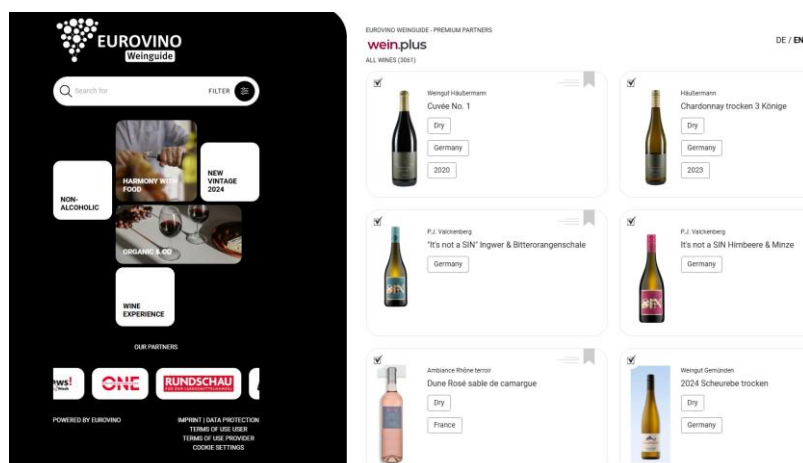

In the following document we will explain to you, how to add your winery/your company into the EUROVINO wine data base, so that it will show up in the [Exhibitor Search](#).

We will also explain to you how to add your wines, so that they will show up in the exhibitor search and our [Weinguide](#).

Exhibitor list:

Weinguide:

Important: Please use the Microsoft Edge or Google Chrome browsers to work in the Wine database. Problems may arise when working with other browsers!

1. Please check the data recorded with us

Welcome to the EUROVINO wine database.

Post your products with just a few simple clicks and present yourself and your company.

Do you want to change your stored data? Please contact info@eurovino.info.

Your stand registration(s)
EUROVINO 2025
Hall 1 | A00
EUROVINO 2026
dm-arena | C00

Notes on uploading images:
Uploaded images are automatically converted to the mentioned target format. JPG or PNG files are best suited for uploading. This must not be larger than 8 MB.
After selecting the desired image section, it must be confirmed by clicking on the check mark, or the process must be canceled by clicking on the cross.

Company logo
Final format: 800 x 800 px
Company logo

Company image
Final format: 1920 x 640 px
Company image

Please check the recorded name of your company, address, telephone number, email address, and your current stand number. If there are any errors or if you would like to make changes, please write to us at: info@eurovino.info.

2. Edit company logo and company

For the presentation in the exhibitor search, you can add your company's logo as well as a photo banner. The display aspect ratios must be 800 x 800 for the logo and 1920 x 640 for the company image. However, if your image files do not have the correct aspect ratio, they can be cropped to the correct format in your browser.

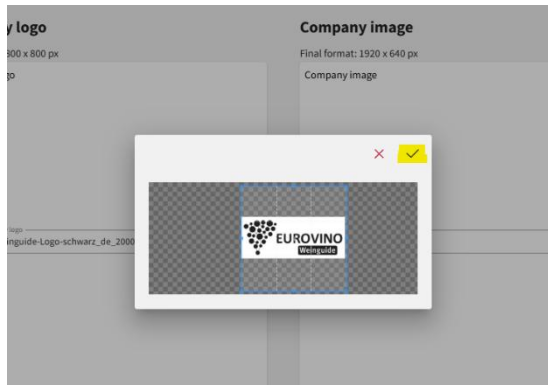

Please note that the image files must be in JPG or PNG format and must not be larger than 8MB.

- 1) Use the paperclip icon to select the desired image file from your computer.

Company logo
Final format: 800 x 800 px
Company logo

Company image
Final format: 1920 x 640 px
Company image

- 2) Scroll with the mouse wheel to adjust the image size to the crop. You can change the scale of the crop using the blue dots (however, the aspect ratio is fixed).

- 3) Finish the editing process by clicking on the green check mark in the upper right corner.

3. Enter company description and complete the editing process

In the last step, you can now add a company description that will be displayed online in your entry in the exhibitor search.

You can now save the data and release it for publication by clicking on the “Publish exhibitor data” button at the bottom right of the screen. This step is necessary to ensure that the data you have entered and uploaded is saved!

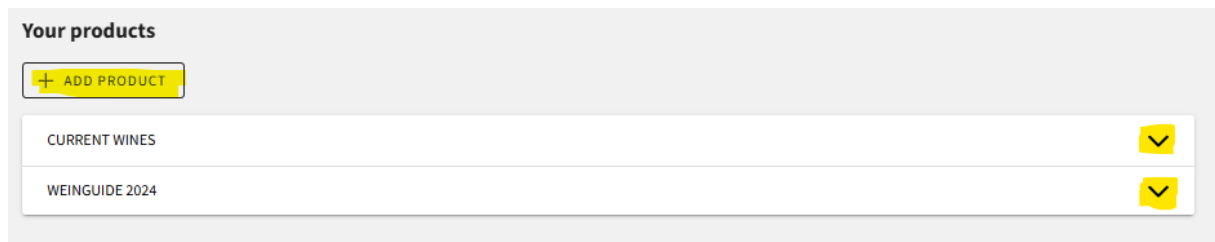

A screenshot of the final form for entering company data. It is divided into three main sections: 'Company logo', 'Company image', and 'Description of the company'. The 'Company logo' section shows the 'EUROVINO Weinguide' logo. The 'Company image' section has a placeholder for a company image. The 'Description of the company' section has a text area for the company description. At the bottom, there is a black bar with two buttons: 'REJECT' and 'PUBLISH EXHIBITOR DATA'.

4. Add your wines

You can now enter your wines in the wine database, which will then appear in our wine guide and in the exhibitor directory.

To do this, you can either transfer wines from last year's directory, the Weinguide 2025 (in the picture we're still working with Weinguide 2024), or add a new product.

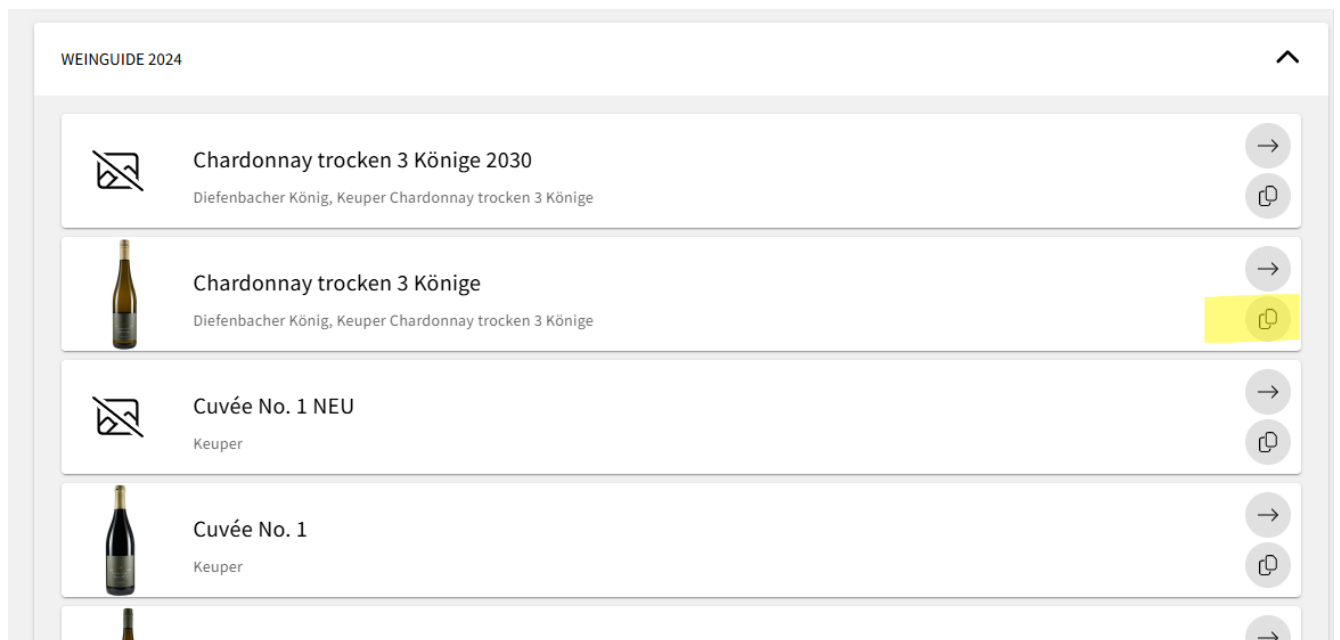

Under the header "current wines", you'll find an overview of your wines registered for the upcoming EUROVINO 2026.

4.1 Transfer wine from the previous year

If a wine has already been entered in the previous year's wine database, you can easily reuse it.

- 1) Open the Weinguide 2025 (sorted alphabetically) and copy the desired wine.

- 2) In the next step, please add any missing data such as vintage, price, analysis values, and a picture of the wine. Important: Fields marked with an asterisk (*) must be filled in; fields without an asterisk are optional.

Producer* Häußermann			
Price / RRP* € 10,00		Shop Url https://www.weingut-haeussermann.de/cgi/shop.pl?t=temartic&f=NR&c=88	
Country of origin* Germany	Quality level* Protected designations ...	Wine region* Württemberg	Appellation
Wine style* Still wine		Type of ageing	
Grape varieties* Chardonnay	Vintage 2023	Wine style* White	Flavor* Dry
Goes well with	Speciality Vegan	Distribution by* Direct Gastronomy Specialist retailer	
Alcohol in % vol. according to label 12,5	Acidity in g/l	Residual sugar in g/l	

- 3) Complete the process by selecting “Publish product”. (For more information on adding product images, see the previous section on adding your logo).

Notes on uploading images:
Uploaded images are automatically converted to the target format of 170 x 400 px. JPG or PNG files are best suited for uploading. This must not be larger than 8 MB.
After selecting the desired image section, it must be confirmed by clicking on the check mark, or the process must be canceled by clicking on the cross.

Saving and Publishing Notes:
Only fully completed product data can be published. To protect data you have entered up to that point from being lost, you can save it temporarily and continue editing at a later date. Cached data sets are not taken into account in the output of the wine guide and the exhibitor directory.

4.2 Adding new wines

- 1) Select the “Add product” button in the overview.
- 2) Use the “+” in the Product Images section to expand the image upload area. Here you can now upload an image file, just as you did when uploading your logo.

Notes on uploading images:
Uploaded images are automatically converted to the target format of 170 x 400 px. JPG or PNG files are best suited for uploading. This must not be larger than 8 MB.
After selecting the desired image section, it must be confirmed by clicking on the check mark, or the process must be canceled by clicking on the cross.

☒ Use as main image

This image should show your bottle with its label and will later be displayed next to the wine name in the wine guide and the exhibitor search. The specified aspect ratio (WxH) is 170 x 400. The wine is now visible in the wine guide. Scroll with the mouse wheel to adjust the image size to the crop.

- 3) Now add the required product information and additional details, you'd like to add.
